SUMMARY & CAREER GOALS

Experienced Front-End Angular programmer with over 2 years of experience. Contributed to 5 medium-to-large-scale projects for 3 technology companies in Can Tho and Ho Chi Minh City, serving clients from Vietnam, Australia, and Singapore.

Always striving for continuous learning and improvement in the profession, with a strong desire to learn from the best.

Above all, my goal is to contribute to the creation of valuable products for users by making a difference and showcasing my abilities.

WORK EXPERIENCES

FRONTEND DEVELOPER (Middle Level)

Redoc | HCM City | 08/2022 - Current

One of the primary Front-End developers in a team of 10 - 15 members.

Main Project: ERP System for a prominent real estate agency in Singapore.

Responsibilities:

- Developed feature modules, handled complex form clusters, and integrated APIs from the Back-End.
- Wrote reusable directives, pipes, and UI libraries throughout the project.
- Implemented a permission system for around 100 sub-modules.
- Utilized the Transloco library to implement multilingual functionality for the project.

FRONTEND DEVELOPER (Junior Level)

AppCore | Can Tho | 01/2022 - 05/2022

One of the primary Front-End developers in a team of 10 - 15 members.

Projects: Several small and medium projects for clients from Australia.

Responsibilities:

- Received design from the designer, reviewed, and provided feedback
- Handled user interactions and integrated APIs from the Back-End.
- Maintained and supported multiple projects simultaneously.
